EXPERIENCE

Software Developer

CAO Group, Inc.

June 2024 – Present

West Jordan, UT

- Developed an AI chatbot for dentists to source information from academic papers using retrieval augmented generation
- Fixed issues with AT commands setting incorrect values in Bluetooth modules

Software Development Intern

CAO Group, Inc.

May 2023 – August 2023

West Jordan, UT

- Developed iOS applications in Objective-C to be paired with Bluetooth dental curing lasers, replacing the older Qt touchscreens for a modernized user experience
- Centralized management of laser presets and configurations, simplifying updates to existing laser firmware
- Created a Python script to automate address validation of dental offices for the sales and marketing departments, reducing manual workload by 30%
- Leveraged AWS (EC2, S3, RDS, and Lambda) to build a proof-of-concept cloud based file sharing system, to be used with a new digital dental headset

Software Development Intern

CAO Group, Inc.

June 2021 – August 2021

West Jordan, UT

- Wrote and tested embedded C for dental lasers and the Bluetooth paddle controllers for them
- Fixed a memory leak from a buffer which caused the lasers to malfunction after firing continuously for around 30 seconds
- Used C++ and Qt to help develop the user interface for the dental lasers
